RAPID, RELIABLE AND SECURE OFFSHORE CONNECTIONS

SEA Snap™

SEA-Snap™ from Enginuity is a single-handed, high-load connector for offshore use.

SEA-Snap™ – The obvious choice for **any offshore or marine securing task**

Designed with a 4:1 safety factor, SEA-Snap™ instantly takes hold and will not release under load. For highly dynamic or long-term connections SEA-Snap™ has an integrated locking pin to protect against accidental disconnection. Disconnection is a simple one-handed operation, making SEA-Snap™ an obvious choice for diver and back-deck operations.

SEA-Snap™ is easier to use than conventional carabiners, snap-hooks and shackles, operation is simple, your load is secure.
- Snap fit, instant-grab connection
- One handed, gloved hand disconnection
- Integrated locking pin, keeps connection secure
- 4 convenient sizes
